“ As your 1 year approaches, I am remembering your last hours. I know it was written of the day and the hour for your passing. I thank God that this past year he was with me. I often think of baby Ace who you loved and cared about so much! Please keep your spirit close so he will never forget you! So long until we see meet again

“ Papa Bear, you are truly missed! You never met a stranger and you always welcomed guests with a smile. Your firm, authoritative, yet nurturing presence is felt by all whom had the opportunity to know you.
